

FIRENZE – TECHNICAL SPECIFICATIONS

Firenze, one of Conneaut Leather's newest introductions, combines fully aniline dyed hides with layers of finishing oils that allow the rich color to glimmer to the surface. Each hide has a slight pull-up effect and "bursts" when slight pressure is applied and the oils are redistributed. A silky hand and natural grain characteristics enhance this naturally beautiful product. Environmentally friendly, Firenze emits low VOC's, contains no lead and is solvent free.
